Starting as an industrial designer, I honed my skills in design, conceptualization, and documentation writing according to automotive industry standards, applying knowledge of product design, project management, and teamwork.

With a goal of broadening my expertise, I pursued training focused on multimedia, specializing in product design, video game design, and user experience. I learned to support my design proposals with accurate data obtained from user analysis, leveraging statistical and mathematical tools to inform creative decisions.

This blend of hands-on experience, technical knowledge, and academic exploration has equipped me with a well-rounded skill set, ready to drive innovation and efficiency in any creative initiative.

## PROFESSIONAL WORK EXPERIENCE

- **Nov 2022**  
**Present**
  - **FNAC Triangle**  
Barcelona  
Logistics Assistant
- **Sep 2016**  
**Jun 2019**
  - **Hutchinson Nichirin Brake Hoses**  
Palamos
